THROWS AND HOLDS

Each fighter in Super Street Fighter II has a number of different throws and holds. These throws and holds can only be done when the two fighters are within "Grabbing Range." The Grabbing Range for each character is different, but most throws and holds are done when two fighters are right next to each other.

THROWS allow you to grab an opponent and toss them across the room. Some fighters can even do throws in mid-air.

For Example: It is possible for Ryu to grab Ken and throw him over his shoulder. To do the Shoulder Throw, Ryu must push forward against Ken and then you must push the Hard Punch (Fierce) button on your control pad.

HOLDS allow you to grab an opponent and then hit or bite them again and again.

For Example: It is possible for Blanka to bite Guile on the head. To do the Head Bite, Blanka must push forward against Guile and then you must push the Hard Punch (Fierce) button on your control pad.

Practice with your favorite character to discover which throws or holds they have and how to use them to your advantage.
